PROFILE

Final-year Artificial Intelligence and Data Science student with hands-on experience in Python, Web Development, and Database Management. Developed real-world projects involving AI, data analysis, and full-stack development. Eager to contribute technical skills, problem-solving abilities, and a strong learning mindset in a dynamic work environment.

SKILLS

Programming Languages: Python, SQL

Tools & Platforms : PowerBI , Excel, GitHub

Frameworks / Libraries: Numpy, Pandas, Matplotlib

Soft Skills: Analytical Thinking, Problem Solving, Teamwork, Communication

AI & Data Science: NLP, Retrieval-Augmented Generation (RAG), Large Language Models

EDUCATION

Bachelor of Technology in Artificial Intelligence and Data Science, <i>Sri Shakthi Institute Of Engineering And Technology, Coimbatore.</i> CGPA-8.59	2023 – 2027 Coimbatore
--	---------------------------

HSLC -Matriculation, RJ Matriculation Higher Secondary School, Coimbatore Percentage -89%	2022 – 2023 Coimbatore
---	---------------------------

SSLC-Matriculation, RJ Matriculation Higher Secondary School, Coimbatore Percentage-100%	2020 – 2021 Coimbatore
--	---------------------------

PROJECTS

Automatic Dashboard Generator

Tools : Python, Streamlit, Pandas, Matplotlib, Plotly, OpenPyXL

Developed an automated dashboard generation system that converts raw datasets into interactive visual dashboards. The system dynamically creates charts, tables, and KPIs based on data type, reducing manual analysis time and improving decision-making efficiency. Designed with a focus on usability and real-time insights.

AI Research Agent

Tools : Python, Streamlit, LangChain, ChromaDB, Hugging Face MiniLM, Tavily API, Retrieval-Augmented Generation (RAG), Large Language Models (LLMs), Vector Search, Semantic Search.

Developed an AI-powered Research Agent that retrieves, analyzes, and summarizes information from documents and real-time web sources. Implemented Retrieval-Augmented Generation (RAG) to provide accurate, context-aware responses and built an interactive interface for efficient research and knowledge discovery.

INTERSHIPS

Data Analyst internship, Career Ladder - Performed data cleaning and preprocessing to ensure accuracy and reliability of datasets. - Analyzed data to identify patterns, trends, and insights for better decision-making. - Created visualizations and reports to present data findings clearly and effectively.	09/2025
---	---------

Data Analyst Internship, Cognifyz - Collected, cleaned, and analyzed data to identify trends and generate meaningful insights. - Created reports and visualizations to support data-driven decision making.	05/2026
--	---------

CERTIFICATES

- SQL-HackerRank
- PYTHON-HackerRank, LetsUpgrade
