PROFILE

Motivated and adaptable Computer Science graduate with strong fundamentals in programming and problem-solving. Eager to learn and apply modern technologies to solve real-world challenges. Possess good communication and interpersonal skills with the ability to collaborate effectively in team and client-facing environments. Quick learner with a proactive mindset, focused on contributing to technology-driven solutions and continuous improvement.

EDUCATION

BE CSE, Sri Shakthi Institute of Engineering and Technology, Coimbatore 2023 – 2027
CGPA - 8.46

HSC, Sri Visalakshi Girls Higher Secondary School, Udumalpet 2023
84.33 %

INTERNSHIP

MERN Stack Web Development Internship 16 JUN -30 JUN 2025
Completed a MERN Stack Internship with hands-on experience in full-stack web application development. Developed responsive web applications by integrating frontend interfaces, backend APIs, and database operations to deliver seamless user experiences. Gained practical experience in REST API development, debugging, deployment, and applying modern web development practices in real-world projects.

SKILLS

Languages and Front-End — C, Java , HTML, CSS.

Backend and Databases — Node.js, Express.js, MongoDB, MySQL, Fast API

Tools and Platforms — GitHub, VS Code.

Core Skills — Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Soft Skills — Communication Skills, Team Collaboration, Adaptability, Quick Learning.

PROJECTS

AI-Driven Personal Document Retrieval 📄 MAR-2026
Developed a web-based Document Management System using React, Node.js, and MongoDB, enabling efficient storage and management of digital documents. Implemented OCR-based text extraction, file upload, organization, and keyword search functionalities to improve document retrieval and accessibility. Designed a user-friendly dashboard for managing, viewing, and searching documents effectively.
Tech Stack: React.js, Node.js, Express.js, MongoDB, OCR (Tesseract.js), JavaScript, HTML, CSS.

NEXUS-URL Shortener With Realtime Data Analytics 📄 MAY 2026
Developed a full-stack URL Shortener application using React, Node.js, Express.js, and MongoDB, enabling users to create and manage shortened URLs efficiently. Implemented URL shortening, user authentication, and real-time click analytics to track link performance and user engagement. Designed a responsive dashboard for URL management, analytics visualization, and performance monitoring.
Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT Authentication, REST APIs, Tailwind CSS, JavaScript.

Text-Based Adventure Game 📄 SEP 2025
Built a Java console-based text adventure game featuring interactive storytelling through user-driven choices and decision-making. Implemented conditions, loops, and branching logic to create multiple story paths and engaging gameplay experiences. Designed a command-line interface that accepts keyboard input and provides dynamic responses based on player actions.
Tech Stack: Java

CERTIFICATES

- **Ideat-A-thon** 📄 — Achieved Top 50 in the national-level ideation challenge Conducted by Chandigarh University.
- **MHTechin Challenge 2025** — Finalist in MHTECHIN, securing a Top 100 position for innovative problem-solving.

ACHIEVEMENTS

Recognized among the **Top 50** teams in the national-level Ideat-A-Thon Hackathon conducted by Chandigarh University, showcasing innovative thinking, teamwork, and strong problem-solving skills.
